

Dear friend. This suitcase is more than just an empty vessel for belongings. It's an expression of our philosophy on travelling and living well – simply, thoughtfully, mindfully, beautifully. So, journey on. We can't wait to experience the world with you.

Designed in Canada. Made for the world.

Setting your TSA-approved combination lock

The opening combination has been set to 0-0-0. To set your own, follow these steps:

1. Turn the dials to the opening combination.
2. From the back, press down the reset button with a pen until you hear a click. The button will stay pressed in.
3. Set your own combination by turning the dials.
4. Push the release button in. The reset button will pop back up when you hear another click.

Be sure to memorize your combination. To set a new one, repeat the steps above.

Taking care of your suitcase

To clean the polycarbonate shell, aluminum parts, and interior lining, use a soft, damp cloth with warm water and mild soap.

For stubborn scuff marks on the shell that water and soap can't easily remove, use the included eraser sponge.

1. Wet the sponge and squeeze out excess water.
2. Gently rub the scuffed area until the mark disappears.
3. Rinse sponge with clean water.
4. Squeeze dry and store.
